**Boating is a great activity
and safe if you know and
practice some basic rules.**

STARTboating.ca covers some of the things you need to know before you go out onto the water... how to plan your trip, what to take with you and how to act and react to situations once you are out there.

If you are brand new to boating or already have a little experience, STARTboating is for you.

You will learn the basics of what it takes to safely enjoy your boating and be better prepared to have fun on the water.

The program will take you along with a family enjoying their day on the water and putting into practice what they have learned to be safe. A few times throughout the story, we'll take a break and give you an opportunity to review what you have seen and learn more.
